

DURAGLAZE™

Ultra-Slick Polymer Finish for DuraShield™ and all paint protection films.

Provides an ultra-slick polymer finish to keep paint protection film and automotive surfaces looking showroom new.

- Great for use on the vehicle exterior including paint protection film and any painted, chrome and glass surfaces.
- DuraGlaze™ creates a slick barrier to repel bug splats, bird droppings, water deposits and other harmful elements which can damage paint protection films, automotive clearcoats and other exterior surfaces.
- DuraGlaze's slick surface makes vehicle cleanup a snap.
- Use on Cars, Trucks, RV's, and Boats to preserve their 'like new' appearance.

Product Offering:

025-55 DuraGlaze™ Polymer Finish - 4 oz. bottle

026-55 DuraGlaze™ Polymer Finish - 16 oz. bottle

Apply DuraGlaze™ to DuraShield™ Paint Protection Films immediately after installation. For best results, re-apply every 6 months for continuous protection and follow the provided product application instructions.

Include a 4 oz. bottle of DuraGlaze™ with every DuraShield™ Paint Protection Film installation to promote ongoing consumer care of PPF surfaces.
